

SAFETY DATA SHEET 135-XXXX PRO-TECH CLEAR & COLORED VARNISH (VARIOUS COLOURS)

According to Regulation (EC) No 1907/2006, Annex II, as amended by Regulation (EU) No 453/2010

SECTION 1: Identification of the substance/mixture and of the company/undertaking		
1.1. Product identifier		
Product name	135-XXXX PRO-TECH CLEAR & COLORED VARNISH (VARIOUS COLOURS)	
Chemical name	SYNTHETIC WOOD PRESERVATIVE	
Product number	135-XXXX	
1.2. Relevant identified uses of	of the substance or mixture and uses advised against	
Identified uses	Wood Coating	
1.3. Details of the supplier of t	the safety data sheet	
Supplier	KUBILAY KIMYA VE BOYA SAN.TIC.LTD.STI. Aliağa Organize Sanayi Bölgesi 113 Sok. No:6 35800 Aliağa / İzmir TURKEY	
	Tel: +90 232 621 50 01 info@kubilayboya.com www.kubilayboya.com	
Contact person	Bahadır AKDAS (Mr) - arge@kubilayboya.com (Certificate No:01.79.05)	
Manufacturer	KUBILAY KIMYA VE BOYA SAN.TIC.LTD.STI. Aliağa Organize Sanayi Bölgesi 113 Sok. No:6 35800 Aliağa / İzmir TURKEY	
	Tel: +90 232 621 50 01 info@kubilayboya.com www.kubilayboya.com	
1.4. Emergency telephone number		
Emergency telephone	KUBILAY BOYA : +90 232 621 50 01(office hours)	
SECTION 2: Hazards identification		
2.1. Classification of the substance or mixture		
Classification (EC 1272/2008) Physical hazards	Flam. Liq. 3 - H226	
Health hazards	Skin Irrit. 2 - H315 Eye Dam. 1 - H318 STOT SE 3 - H336	
Environmental hazards	Aquatic Chronic 2 - H411	
2.2. Label elements		

Pictogram

Signal word	Danger
Hazard statements	H226 Flammable liquid and vapour. H315 Causes skin irritation. H318 Causes serious eye damage. H336 May cause drowsiness or dizziness. H411 Toxic to aquatic life with long lasting effects.
Precautionary statements	 P102 Keep out of reach of children. P201 Obtain special instructions before use. P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. P243 Take precautionary measures against static discharge. P260 Do not breathe dust/ fume/ gas/ mist/ vapours/ spray. P270 Do not eat, drink or smoke when using this product. P280 Wear protective gloves/ protective clothing/ eye protection/ face protection. P301+P310 IF SWALLOWED: Immediately call a POISON CENTER/ doctor. P302+P352 IF ON SKIN: Wash with plenty of water. P303+P361+P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/ shower. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P370+P378 In case of fire: Use foam, carbon dioxide, dry powder or water fog to extinguish. P403+P233 Store in a well-ventilated place. Keep container tightly closed. P501 Dispose of contents/ container in accordance with national regulations.
Contains	NAPHTHA (PETROLEUM), HYDRODESULFURIZED HEAVY; LOW BOILING POINT HYD (Note P), ISO-BUTANOL

2.3. Other hazards

This substance is not classified as PBT or vPvB according to current EU criteria.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

NAPHTHA (PETROLEUM), HYDRODESULFURIZED40-609HEAVY; LOW BOILING POINT HYD (Note P)40-609		
CAS number: 64742-82-1	EC number: 265-185-4	
Classification		
Flam. Liq. 3 - H226		
Skin Irrit. 2 - H315		
STOT SE 3 - H336		
Asp. Tox. 1 - H304		
Aquatic Chronic 2 - H411		

ISO-BUTANOL	1-5%	
CAS number: 78-83-1	EC number: 201-148-0	
Classification Flam. Liq. 3 - H226 Skin Irrit. 2 - H315 Eye Dam. 1 - H318 STOT SE 3 - H335, H336		
The full text for all hazard state	ements is displayed in Section 16.	
SECTION 4: First aid measure	98	
4.1. Description of first aid me	asures	
General information	Move affected person to fresh air at once. Get medical attention if any discomfort continues.	
Inhalation	Move affected person to fresh air at once. Get medical attention. Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. When breathing is difficult, properly trained personnel may assist affected person by administering oxygen.	
Ingestion	Do not induce vomiting. Never give anything by mouth to an unconscious person. Do not induce vomiting. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Give plenty of water to drink. Get medical attention immediately. Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing.	
Skin contact	Remove affected person from source of contamination. Remove contaminated clothing. Wash skin thoroughly with soap and water. Get medical attention promptly if symptoms occur after washing.	
Eye contact	Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 15 minutes and get medical attention.	
4.2. Most important symptoms	and effects, both acute and delayed	
Inhalation	Coughing, chest tightness, feeling of chest pressure. Nausea, vomiting. Exhaustion and weakness.	
Ingestion	Nausea, vomiting. Drowsiness, dizziness, disorientation, vertigo.	
Skin contact	Skin irritation.	
Eye contact	Irritation of eyes and mucous membranes.	
4.3. Indication of any immediate medical attention and special treatment needed		
Notes for the doctor	No specific recommendations.	
SECTION 5: Firefighting measures		
5.1. Extinguishing media		
Suitable extinguishing media	Extinguish with the following media: Foam. Dry chemicals, sand, dolomite etc.	
5.2. Special hazards arising from the substance or mixture		
Specific hazards	Toxic gases/vapours/fumes of: Carbon dioxide (CO2). Carbon monoxide (CO). May explode when heated or when exposed to flames or sparks. Vapours are heavier than air and may spread near ground and travel a considerable distance to a source of ignition and flash back.	
5.3. Advice for firefighters		

Protective actions during firefighting	Avoid breathing fire gases or vapours. Cool containers exposed to flames with water until well after the fire is out. Control run-off water by containing and keeping it out of sewers and watercourses. Risk of re-ignition after fire has been extinguished.
Special protective equipment for firefighters	Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Personal precautions	Wear protective clothing as described in Section 8 of this safety data sheet. No smoking,
	sparks, flames or other sources of ignition near spillage. Avoid inhalation of vapours and
	contact with skin and eyes. Provide adequate ventilation.

6.2. Environmental precautions

Environmental precautions Do not discharge into drains or watercourses or onto the ground. Spillages or uncontrolled discharges into watercourses must be reported immediately to the Environmental Agency or other appropriate regulatory body.

6.3. Methods and material for containment and cleaning up

and plac watercou	r, boots, clothing or apron, as appropriate. Absorb in vermiculite, dry sand or earth e into containers. Avoid the spillage or runoff entering drains, sewers or urses. Small Spillages: Absorb spillage with non-combustible, absorbent material. nd place in suitable waste disposal containers and seal securely. For waste disposal, ion 13.
----------------------	--

6.4. Reference to other sections

Reference to other sections For personal protection, see Section 8. See Section 11 for additional information on health hazards. For waste disposal, see section 13.

SECTION 7: Handling and storage

7.1. Precautions for safe handling Usage precautions Avoid spilling. Avoid contact with skin and eyes. Provide adequate ventilation. Avoid inhalation of vapours. Use approved respirator if air contamination is above an acceptable level. Eliminate all sources of ignition. Good personal hygiene procedures should be implemented. Wash hands and any other contaminated areas of the body with soap and water before leaving the work site. Do not eat, drink or smoke when using the product. Mechanical ventilation or local exhaust ventilation may be required. Observe any occupational exposure limits for the product or ingredients. Avoid inhalation of vapours and spray/mists. 7.2. Conditions for safe storage, including any incompatibilities Storage precautions Store in tightly-closed, original container in a dry, cool and well-ventilated place. Keep away from food, drink and animal feeding stuffs. Keep away from heat, sparks and open flame. Storage class Chemical storage. 7.3. Specific end use(s) Specific end use(s) The identified uses for this product are detailed in Section 1.2. SECTION 8: Exposure Controls/personal protection 8.1. Control parameters

Occupational exposure limits ISO-BUTANOL

Long-term exposure limit (8-hour TWA): WEL 50 ppm 154 mg/m³ Short-term exposure limit (15-minute): WEL 75 ppm 231 mg/m³ WEL = Workplace Exposure Limit

Ingredient comments

WEL = Workplace Exposure Limits

8.2. Exposure controls

Protective equipment

Appropriate engineering controls	Provide adequate general and local exhaust ventilation.
Eye/face protection	The following protection should be worn: Chemical splash goggles.
Hand protection	Use protective gloves.
Other skin and body protection	Wear appropriate clothing to prevent any possibility of liquid contact and repeated or prolonged vapour contact.
Hygiene measures	Do not smoke in work area. Wash at the end of each work shift and before eating, smoking and using the toilet. Promptly remove any clothing that becomes contaminated. Wash promptly with soap and water if skin becomes contaminated. Use appropriate skin cream to prevent drying of skin. When using do not eat, drink or smoke.
Respiratory protection	No specific recommendations. Respiratory protection must be used if the airborne contamination exceeds the recommended occupational exposure limit.

SECTION 9: Physical and Chemical Properties

9.1. Information on basic physical and chemical properties

9.1. mormation on basic phys	ical and chemical properties	
Appearance	Liquid.	
Colour	Various colours.	
Odour	Characteristic.	
Initial boiling point and range	>35°C @ 760 mm Hg	
Flash point	> 25°C	
Bulk density	0,9 ± 0,05 g/cm3, 20°C	
Solubility(ies)	Insoluble in water.	
Viscosity	30 sec, D4/20 @ °C	
9.2. Other information		
Other information	No information required.	
Volatile organic compound	This product contains a maximum VOC content of 425 g/l.	
Un-volatile content(%)		
SECTION 10: Stability and reactivity		
10.1. Reactivity		

Reactivity

There are no known reactivity hazards associated with this product.

10.2. Chemical stability

10.3. Possibility of hazardous reactions Possibility of hazardous Not known. reactions Not known. 10.4. Conditions to avoid Avoid contact with the following materials: Acids. Oxidising agents. 10.5. Incompatible materials Materials to avoid 10.6. Hazardous decomposition products Fire creates: Toxic gases/vapours/fumes of: Carbon monoxide (CO). Carbon dioxide (CO2). Products Fire creates: Toxic gases/vapours/fumes of: Carbon monoxide (CO). Carbon dioxide (CO2). SECTION 11: Toxicological information There is no evidence that the product can cause cancer. SECTION 12: Ecological Inform	nation
Ecotoxicity	Dangerous for the environment. May cause long-term adverse effects in the aquatic environment.
12.1. Toxicity	
12.2. Persistence and degrada	bility
Persistence and degradability	There are no data on the degradability of this product.
12.3. Bioaccumulative potentia	<u>u</u>
Bioaccumulative potential	No data available on bioaccumulation.
12.4. Mobility in soil	
12.5. Results of PBT and vPvB	3 assessment
Results of PBT and vPvB assessment	This product does not contain any substances classified as PBT or vPvB.
12.6. Other adverse effects	
Other adverse effects	No information required.
SECTION 13: Disposal conside	erations
13.1. Waste treatment method	S
General information	When handling waste, the safety precautions applying to handling of the product should be considered.
Disposal methods	Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority. Environmental Manager must be informed of all major spillages. Avoid the spillage or runoff entering drains, sewers or watercourses. Containers should be thoroughly emptied before disposal because of the risk of an explosion.
SECTION 14: Transport inform	nation
14.1. UN number	
UN No. (ADR/RID)	1263
UN No. (IMDG)	1263
UN No. (ICAO)	1263
14.2. UN proper shipping name	9
Proper shipping name (ADR/RID)	PAINT RELATED MATERIAL
Proper shipping name (IMDG)	PAINT RELATED MATERIAL
Proper shipping name (ICAO)	PAINT RELATED MATERIAL
Proper shipping name (ADN)	PAINT RELATED MATERIAL
14.3. Transport hazard class(e	s)
ADR/RID class	3
IMDG class	3
ICAO class/division	3

Transport labels

14.4. Packing group		
ADR/RID packing group	III	
IMDG packing group	III	
ICAO packing group	III	
14.5. Environmental hazards		
Environmentally hazardous substance/marine pollutant		
14.6. Special precautions for u	ser	
Hazard Identification Number (ADR/RID)	30	
Tunnel restriction code	(D/E)	
14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code		
Transport in bulk according to	Not applicable.	

Annex II of MARPOL 73/78

and the IBC Code

SECTION 15	5: Regulatory	information
------------	---------------	-------------

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture		
National regulations	The Chemicals (Hazard Information and Packaging for Supply) Regulations 2009 (SI 2009 No. 716).	
EU legislation	Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures (as amended).	
Guidance	Workplace Exposure Limits EH40. Introduction to Local Exhaust Ventilation HS(G)37. CHIP for everyone HSG228. Approved Classification and Labelling Guide (Sixth edition) L131.	

15.2. Chemical safety assessment

No chemical safety assessment has been carried out.

SECTION 16: Other information

Key literature references and sources for data	This SDS is prepared based on the information received from the product raw material.
Revision comments	This is first issue.
Issued by	Bahadır AKDAS
Revision date	07/05/2018
Revision	00
Supersedes date	07/05/2018

SDS number	20391
Hazard statements in full	H226 Flammable liquid and vapour.
	H304 May be fatal if swallowed and enters airways.
	H315 Causes skin irritation.
	H318 Causes serious eye damage.
	H335 May cause respiratory irritation.
	H336 May cause drowsiness or dizziness.
	H411 Toxic to aquatic life with long lasting effects.
